

## PLATH Signal Products GmbH & Co. KG (PSP) Position Statement on REACH

REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals, EC 1907/2006) is the European Union's regulation for the control and management of chemicals that came into force on 1 June 2007. PSP wholeheartedly supports the objective of REACH; to enhance public health and safety and the protection of the environment.

PLATH Signal Products GmbH & Co. KG (PSP) is a manufacturer of antennas, radio receivers and radio direction finder. We are a downstream user under REACH and any relevant substances incorporated in our products are in volumes of < 1 ton per year. Under normal and reasonably foreseeable conditions of use, these products will discharge no substances. We require our suppliers to register and apply for authorisation for REACH relevant substances and we are not required to register and apply for such authorisation ourselves. As part of our commitment to REACH compliance PSP only purchases and supplies:

- Substances, preparations and articles that are registered under REACH
- Materials and articles (except as declared in the appendix), which are, to the fullest extent possible, free from Substances of Very High Concern
- Materials and articles that are not listed under REACH Annex XIV.
- Materials and articles that are not listed under REACH Annex XVII.

Suppliers of articles must provide recipients with information on Substances of Very High Concern if those are present above a concentration limit of 0.1% on an article level. In response to this requirement PSP provides the following information.

SVHC Candidate List Date:	15th January 2019				
SVHC Candidate List No. of Substances:	197				
Parts subject to declaration	Substance Name	CAS number	Reason for inclusion	Safe use and disposal	
All parts unless specifically indicated	Lead	7439-92-1	Toxic for reproduction (Article 57c)	Used as an alloying metal. Exemption 6.c applied under RoHS 2. Do not chew parts or put them in mouth, keep away from unsupervised children. Dispose of parts as WEEE waste do not send to landfill.	

The information in this document is provided to the best of PSP’s knowledge and belief. To the extent that PSP is relying on information provided by third parties then PSP makes no warranties as to the accurateness or completeness of that information This statement will be reviewed annually and updated when changes apply. Please feel free to contact us at if you have any questions or need any additional information.
